Name _____ Club _____

County _____ Address _____

Age _____ Years in 4-H _____ Date project completed _____

Developed and written in 1998 by the 4-H poultry curriculum development committee:

Casey W. Ritz, Extension Specialist, Poultry; David J. Workman, Hardy County Extension Agent;
Carol R. Schuller, Project Coordinator; and Jean M. Woloshuk, Extension Specialist, 4-H Youth Agriculture.

Introduction

The 4-H poultry project is for individuals wanting to learn how to raise poultry for meat, eggs, or show. The project's objectives are to teach individuals to (1) feed and manage poultry, (2) exhibit poultry, and (3) record project activities and finances. **You are encouraged to work closely with your adviser on the production, exhibition, or marketing specifics for the class of bird on which your project is based.**

Poultry Projects

1. Broiler Production Project: 4-H'er raises 25 or more broiler chickens for meat production. This is a short-term project lasting six to eight weeks. Broilers raised for this project are bought as one-day-old chicks. Record your project activities on pages 2-4 of this guide.
2. Turkey Production Project: 4-H'er raises 15 or more turkeys for meat production. Project duration is 14-18 weeks. Turkeys raised for this project are bought as one-day-old poults and should be of commercial white broad-breasted variety. Record your project activities on pages 2-4 of this guide.
3. Egg Production Project: 4-H'er raises a flock of 25 or more laying hens for egg production. This long-term project generally lasts six months or more. Hens used for this project may be bought as pullets (young hens) or raised from one-day-old chicks. The eggs produced can be used at home or sold to a local market. Record your project activities on pages 5-8 of this guide.
4. Exhibition Bird Project: 4-H'er raises 15 or more birds to be exhibited at county, regional, or state poultry shows. All birds exhibited must be raised from one-day-old chicks. Exhibit birds must be purebred and may be standard bred or bantam (miniatures). Record your project activity on pages 9-10 of this guide.
5. Other Bird Project: 4-H'er raises other bird types (ex. ostrich, emu, etc.) for meat production or breeding purposes. Eggs, meat, or breeding stock produced can be for home or commercial use. Record your project activities on pages 11-12 of this guide.

Purchasing Birds

Buy all birds from a reliable hatchery or breeder. The hatchery or breeder you choose should be a member of the National Poultry Improvement Plan (NPIP) or should practice a blood testing program to produce birds that are pullorum and typhoid clean.

Birds purchased for egg production or exhibition should be started in the first quarter of the year. Birds purchased for meat production can be started anytime.

Broiler/Turkey Record

Week	No. Birds Week Start	No. Birds Week End	Average Weight	Feed			Feed Efficiency*
				Type	Lbs. Fed	Cost	
Total							

Formula

*Feed Efficiency =
$$\frac{\left(\frac{\text{Lbs. Feed Fed}}{\text{No. Birds Week End}} \right)}{\text{Average Weight}}$$

(A measure of the pounds of feed required for every pound of gain.)

Performance Summary

	Projected	Actual
1. Date project was started		
2. Date project was closed		
3. Number of birds started		
4. Number of birds at finish		
5. Total lbs. of meat marketed		
6. Total days in the feeding period		
7. Total gain		
8. Total lbs. feed consumed		
9. Total feed cost		
10. Average weight at market		
11. Feed efficiency ratio (feed consumed [8] ÷ meat marketed [5])		
12. Percent livability (birds at finish [4] ÷ birds started [3] x 100)		

Financial Summary

Income

Poultry on hand at the end of the project at current value _____
Income (eggs, meat, live birds sold or used) _____
Other income (premiums won, etc.) _____
Total Income **_____**

Expenses

Poultry started with or bought during project _____
Total feed costs _____
Total housing costs, if any _____
Total equipment costs, if any _____
Total fuel costs, if any _____
Total other expense (medicine, bedding materials, water) _____
Total Expenses **_____**

Total Income _____
Total Expenses _____
Profit or Loss _____

Merchandising Summary

List any potential buyers contacted before your show/sale.

Describe any other methods used to sell your poultry. _____

Who purchased your poultry/poultry products? _____

At what price? _____

Please include a copy of your thank-you letter.

Monthly Egg Total _____ + Total Eggs Forwarded _____ = Total Eggs to Date _____

*Total No. of Birds per Month = No. of Birds at Start + No. of Birds at End ÷ 2.

Monthly Laying Record

Month	No. Eggs Produced	No. Eggs Home Use	No. Birds	% Production	Lbs. Feed Used	Miscellaneous	
						Income	Expenses
Total							

Formula

$$\% \text{ Production} = \left(\frac{\text{No. Eggs Produced [Column 2]}}{\text{No. Birds [Column 4]}} \right)$$

Egg Production Performance

Chart monthly production percentage to show values over the length of the laying cycle.

Performance Summary

	Projected	Actual
1. Date project was started		
2. Date project was closed		
3. Number of birds started		
4. Number of birds at finish		
5. Total days in laying period		
6. Total no. eggs produced		
7. Total no. dozen eggs marketed		
8. Total lbs. feed consumed		
9. Lbs. feed/dozen eggs (total lbs. feed consumed [8] ÷ total no. dozen eggs marketed [7])		
10. Percent livability (birds at finish [4] ÷ birds started [3] x 100)		
11. Eggs/hen housed (total no. eggs produced [6] ÷ no. of birds started [3])		
12. Peak production percentage (See Egg Production Chart, page 6)

Your Project Story *(Continued)*

4-H Project Evaluation

Now that you have finished this project, it is time for you to think about what you have learned. We also would like to know what you have learned and if the project needs to be improved. Your comments will help the people write the projects. Please write answers to the following questions. Then give this form to your 4-H leader or mail it to:

Project Evaluation
State 4-H Office
Knapp Hall, PO Box 6031
Morgantown, WV 26506-6031

Title of Project _____

Girl Boy (circle one) Age _____ Grade in School _____ Years in 4-H _____

1. Was this your first project in this subject? _____
2. Why did you pick this project? _____

3. What was your favorite part of this project? _____

4. By doing this project, what did you learn that you didn't know before? _____

5. Did you do the activities in the project book? Why or why not? _____

6. What activities did you like doing? _____

7. How would you change this project to make it better? _____

8. Would you tell others to take this project? Why or why not? _____

9. What other 4-H projects have you taken? _____

10. If you have something else to say, write it on the back.

Poultry Project Score Sheet

- ★ If you are taking this project without an animal, check with your extension agent for approval. It is suggested that the Self-Determined project be used with the North Central poultry project book as a resource. Consult with your extension agent to plan your project work.

Poultry Project Book

- ✓ Complete seven activities in the Poultry Achievement Program of the North Central Project Book
(Each activity is worth 5 points ~ Total 35 possible points)

- ✓ Complete Planning Guide in North Central Project Book on pages 3-5
(Worth 5 points)

Exhibit/Production Score *(Total 20 possible points)* ★

- ✓ This may be the actual exhibition of your animal or other designated project or service determined with your extension agent.
